Herewith we are glad to confirm that Siemens is cooperating with A-Group Insurance Company since 2002.

During the given period A-Group has proven itself as a reliable partner with a well-experienced staff and efficient management. The Insurance Company has always made great endeavors to provide the whole scope of the health insurance services as well as the requests for our employees.

From our side we would recommend A-Group Insurance Company to any organization which intends to start the business relations with them.

Samir Akhundov
