To Whom It May Concern:

This is to confirm that Hyatt Regency Baku has a contract with A-Group Insurance Company on provision of medical insurance for national staff from January 2018. Since then we have a successful partnership with A-Group and have very positive feedbacks from our employees on their services. Our colleagues appreciate most that we have Medclub in the list of clinics which is unique for A-Group only, emergency ambulance services and Mobile Concierge application. A-Group arranged several complimentary training courses related to health and wellbeing for our staff.

We highly recommend A-Group to any international company looking for provider of medical insurance services.

Best Regards,

Arzu Askerova
